# WHAT MAKES OUR STONE WALLING & CLADDING SPECIAL?

## 1. All British Materials

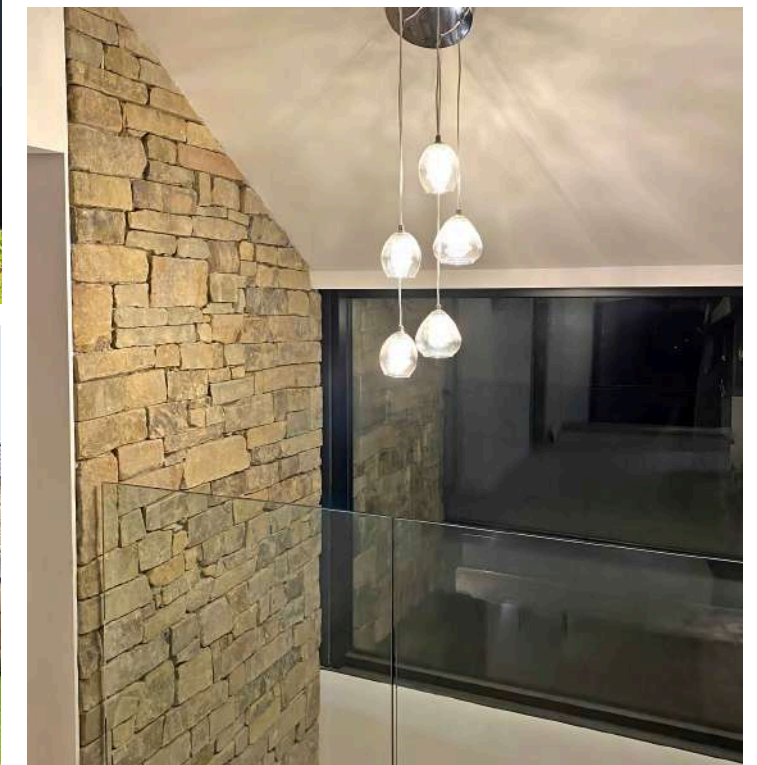

All our natural stone walling and cladding are sourced locally, ensuring the highest quality and authenticity. By using local materials, we support the British economy and guarantee that our products are environmentally responsible, reducing the carbon footprint associated with long-distance transportation.

## 2. Handcrafted by Stone UK

Each piece of our natural stone walling & cladding is meticulously handcrafted by our skilled artisans at Stone UK. Our team combines traditional craftsmanship with modern techniques to create products that are both beautiful and durable. This hands-on approach ensures that each stone is unique, reflecting the natural beauty and character of the raw material.

## 3. Environmentally Sustainable

Using locally sourced British stone not only supports local communities but also promotes sustainability. Our natural stone is an eco-friendly choice, with minimal environmental impact compared to imported materials. By choosing our products, you are making a conscious decision to support sustainable practices and reduce your environmental footprint.

## STONE WALLING

Here at Stone UK, we offer a diverse selection of stone walling options including our handcrafted Abbeystead, Bronte and Fairfield ranges. Additionally, we also feature our Reclaimed walling range which combines historical charm with sustainability.

# ABBEYSTEAD RANDOM WALLING NATURAL

## STONE CLADDING

A project does not always require the full depth of our walling stone. Because of this, we are proud to offer our walling in a hand-crafted cladding option, at a much thinner thickness.

This makes it the perfect choice for internal and external projects where a wall has already been constructed.

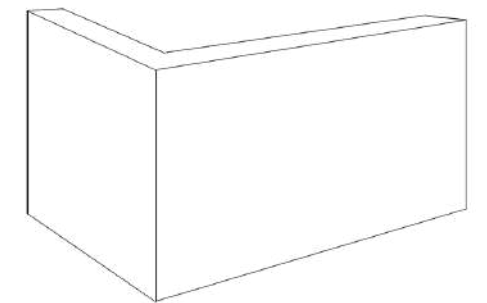

# ABBEYSTEAD RANDOM CLADDING

Our Abbeystead Random cladding delivers the same distinctive charm as our stone walling but without the weighty blocks, therefore improving the ease of installation!

## FORMATS & COVERAGE

Format	Random sizes approx 20-30mm
Unit Sold	Pallet
Coverage	15m <sup>2</sup>

# MORTARS, SEALERS & FINISHES

Ultrascape Slipbond – Stone & Brick Adhesive

Cempoint: Gun Injected Mortar

We work with leading brand partners to offer a wide range of high quality adhesives and mortars along with other ancillary products to assist in installing your natural stone walling and cladding.

We advise that all natural stone is sealed to prevent the potential build-up of environmental dirt, grime and algae, along with accidental spillages such as red wine, grease, coffee, paint and much more.

We offer a range of environmentally friendly, non hazardous Eco Stone Shield products designed by us to help in sealing, cleaning and enhancing your natural stone.
