Ecological water based ingredients	✓
Can be used with a pressure washer	✓
Biodegradable	✓
Ready & easy to use	✓
Does not alter the aesthetic of the treated surface	✓
Highly versatile	✓

Untreated Surfaces

Spills penetrate deep into the pores of an untreated surface leaving hard to remove.

Treated Surfaces

Cleaning the surface breaks down the dirt and grease on a molecular level restoring the stone to its natural colour.

Available in 1 ltr, 5 ltr, 25 ltr and 1000 ltr

Important: The content of this documentation is based on our experience of the product. Eco Stone Shield guarantees the quality of its products, but expressly declines any liability in the event of failure by the user to comply with the recommendations and conditions of use of said products, notably but not exclusively in the event of incorrect application, application by unqualified personnel, use of products not compatible with Eco Stone Shield's products or bad weather conditions. For further information, refer to the Safety Data Sheet.

APPLICATION

Due to the porosity of unsealed stone some liquids if left to dry can penetrate deep into the substrate. For such stains agitation with a stiff brush may be required however, **Eco Stone Shield Stone Cleaner** is an ideal solution for removing the most stubborn stains on unsealed stone.

ALWAYS TEST ON A SMALL AREA FIRST

Eco Stone Shield Stone Cleaner is ready to use neat, but can be diluted with up to 20 parts water depending on the severity of the staining (see table).

1. Before use clear any excess dirt or spills and shake the bottle well.
2. Apply the product liberally with a sponge, brush, sprayer or pressure washer.
3. Leave the product for 10 to 15 minutes to loosen up the deposits of dirt and stains. (Do not allow the product to dry on the treated surface).
4. **Agitate the surface** with a stiff brush. .
5. Rinse the surface off with water.

SOILING	STONE CLEANER	PARTS WATER
Light	1	20
Medium	1	10
Heavy	1	2.5
Extreme	1	1
Daily cleaning	1	20

RECOMMENDATIONS

- Repeat the application process up to 3 times where necessary.
- Do not apply during heavy rain or frost and when the surface and air temperature is less than 5°C and above 40°C.
- Storage: 24 months following the production date when kept in the original unopened container.
- Immediately after you have finished clean all tools and equipment with water.

Wear protective gloves and glasses, and appropriate clothing whilst using the product. Do not dilute or mix with any other product, notably bleach (risks of emission of toxic chloride gas).

Once clean we recommend you seal the area with Eco Stone Shield Stone Sealer.

Once the area has been sealed minimal cleaning can be carried out using Eco Stone Shield Stone Cleaner as and when required.

HEALTH AND SAFETY

- Under normal conditions of use where adequate ventilation is available, no special respiratory protection equipment is needed.
- Wear domestic gloves.
- Wear protective clothing over exposed areas of skin.
- Wear safety goggles.
- If swallowed do not induce vomiting. Contact a doctor or a specialist.
